

Fellowship Centers Attendance Dashboard - User Guide

Overview

This dashboard provides an interactive view of weekly fellowship center performance across regions and provinces. It enables users to analyze attendance trends, center activity, demographic composition, and evangelism outcomes.

The report is designed for leadership, analysts, and operational teams to support data-driven decision-making.

How to Use the Dashboard

Navigation Between Dashboards

The report contains five dashboards:

- Executive Summary
- Center Activity Analysis
- Demographic Analysis
- Attendance Analysis
- Evangelism Analysis

Use the navigation buttons to switch between dashboards.

Filters (Slicers)

Each dashboard includes interactive filters:

- Year (e.g., 2025, 2026)
- Month
- Region

Selecting a filter will automatically update all visuals on the page.

To reset filters, use the reset button or clear selections manually.

Executive Summary Dashboard

Purpose:

Provides a high-level overview of performance across all key metrics.

Key Metrics:

- Total Attendance
- Year-over-Year Growth
- Center Activity Rate
- First Timers
- New Converts

Use this dashboard for:

- Quick performance checks
- Leadership reporting

- Monthly or quarterly reviews

Center Activity Analysis

Purpose:

Evaluates how consistently fellowship centers are holding meetings.

Key Metrics:

- Center Activity Rate
- Attendance Trends
- Regional and Provincial Performance

Use this dashboard to:

- Identify inactive or low-performing provinces
- Track operational consistency
- Improve center participation rates

Demographic Analysis

Purpose:

Shows attendance breakdown by Male, Female, and Children.

Key Metrics:

- Gender and children distribution
- Regional demographic patterns
- Monthly demographic trends

Use this dashboard to:

- Understand Fellowship attendees composition
- Identify demographic shifts
- Support targeted engagement strategies

Attendance Analysis

Purpose:

Analyzes attendance efficiency and engagement trends.

Key Metrics:

- Total Attendance
- Attendance Rate per Meeting
- Regional and Provincial performance

Use this dashboard to:

- Track engagement levels
- Compare performance across regions
- Identify growth or decline trends

Evangelism Analysis

Purpose:

Measures outreach effectiveness and conversion performance.

Key Metrics:

- First Timers
- New Converts
- Conversion Ratios
- Regional outreach performance

Use this dashboard to:

- Evaluate outreach success
- Track visitor growth
- Improve follow-up processes

Important Notes

- Filters apply across all visuals within each dashboard page.
- Some metrics are calculated using DAX measures and may update dynamically based on filter selection.
- Data has been anonymized to protect sensitive information.

Best Practices for Users

- Always start analysis from the Executive Summary dashboard.
- Use filters to narrow down insights by region or time period.
- Compare current year vs previous year for meaningful insights.

Support
